Coming soon to a city near you — statement-making new hotels worth planning your holiday around

The open-plan tents at The Pavilions allow for a full-on nature immersion (Photo: Courtesy of Pavilions Hotels)

When: January 2019

In harmony with the pristine surroundings of Pokhara Valley, The Pavilions Himalayas Lake View follows in the green footsteps of its award-winning sister property, [The Pavilions Himalayas](#). Getting to the resort is an experience in itself—one must take a paddle boat across Phewa Lake, the second largest lake in Nepal and ground zero for all of the attractions in the valley.

Featuring 8 luxury tented eco villas, a first in the country, The Pavilions proffers a true nature immersion given the tents' open design. Backed by the Himalayan mountain range and surrounded by serene rice fields, they're built so guests can savour the fresh air and take in the clear, star-studded sky come nightfall.

The Highlight: While it's perfectly acceptable to laze in your tent, make the most out of the majestic surrounds by mountain trekking, kayaking on the lake or joining a guided walk led by a local naturalist.
