El Nido Beach Spa & Resort

PALAWAN

The Pavilions Hotels & Resorts has announced the signing of El Nido Beach Spa & Resort, set to open on the white sandy beaches of Palawan Island, Philippines in 2022. Once completed, the 10-hectare beachfront estate will feature 96 pool villas with tropical ocean views, an adventure park, dive centre, unique dining experiences and signature spa and wellness facilities.

"The new resort truly embodies our philosophy of delivering unique experiences to our guests," says Gordon Oldham, founder and owner of The Pavilions Hotels & Resorts. "We're also very excited to be the first international luxury resort brand in El Nido."

Featuring a mix of one- and two-bedroom villas, as well as 20 Maldivian-style over-water villas – each with private plunge pools and direct access to the ocean where guests can snorkel the house reef – the development is to be built with minimal environmental impact and sustainability in mind.

With a focus on adventure, the resort will offer guests 'Curated Journeys' – the group's bespoke travel itineraries. Exclusive to El Nido is the Adventure Park featuring alpine slides, nature park stairs, rock gardens, fountain ponds, a butterfly garden and a cable car.

The resort also offers investment opportunities with prices starting from US\$239,000 for a one-bedroom villa with staged payments throughout the build. Buyers can expect guaranteed rental returns along with up to four weeks' free usage per year, as well as Pavilions Hotels & Resorts owners global benefits.

Scot Toon, Managing Director, Asia, The Pavilions Hotels & Resorts, comments: "El Nido is a rising star in island destinations within Asia. We're looking forward to offering our guests the opportunity to imbibe all that the island has to offer."
